

# VITANICA<sup>®</sup> ~ V-FRESH<sup>™</sup>

This unique and updated suppository supports a healthy vaginal pH, naturally resolving undesired vaginal odor. Formulated by Dr. Tori Hudson with natural ingredients, in a soothing base, featuring lactic acid, promotes normal vaginal pH and a healthy ecology.

## Featured Ingredients:

- **Lactic acid** is a natural ingredient with supportive research for maintaining the normal, healthy, acidic vaginal pH and microbiome
- Quick 7-night suggested usage promotes maintenance of the healthy and normal vaginal pH, may be repeated if needed; package now includes a two-week supply of 14 suppositories
- Vaginal odor is normal. However, it shouldn't be unpleasant. V-Fresh naturally supports the preferred normal acidic environment, which naturally resolves undesired vaginal odor

**Indications:** Supports a healthy vaginal pH, naturally resolves undesired vaginal odor, with an updated, easy-to-use lactic acid suppository.

**Suggested Use:** Insert 1 suppository vaginally for 7 nights, or as directed by your healthcare practitioner; can be repeated if needed. Full instructions are included with the packaging.
