

VITANICA® ~ FEMVITALITY®

A botanical combination to bring forth the historical/traditional uses of three of the most important plants supporting libido in women, but also now documented in the research for promoting sexual function in women.

Featured Ingredients:

- **Tribulus** now shows documented research in significantly promoting several areas of sexual function in women including the domains of desire, arousal/lubrication and pleasure
- **Fenugreek** also shows in research to promote free testosterone and estradiol and shows support of libido - desire and arousal
- **Maca peruvianum** is a traditionally used herb from South America, which also shows supportive research in promoting women's sexual function

Indications: Sexual function is complex, and not all causes are hormonal. It is important to seek evaluation to try to learn what may be the cause, which can include many emotional and situational circumstances. FemVitality offers an area of support/maintenance with research supported botanicals, as well as historically used herbs, to support the female libido & promote sexual function.

Suggested Use: Two (2) capsules per day. For best results, take on an on-going basis. May be taken with or without food.

Supplement Facts

Quality Control Statement

Vitanica is committed to maintaining the content and purity of our dietary supplements. We believe this is accomplished by focusing on the principles that contribute to well-designed products which will support health without contributing to toxicity, utilizing safe and effective ingredients.

Good Manufacturing Practices involve having policies in place to assure adequate and clean facilities, training of staff, verifying and tracking suppliers, raw material testing, clean and organized manufacturing and labeling lines, record keeping, finished product testing, clean and regulated warehousing, etc.

At Vitanica, we strive for excellence in these principles.

One way to assure quality is through third party certification via on-premise observation and analysis. At Vitanica, we are glad to say our dietary supplement manufacturing facilities are third-party certified, FDA registered and meet all regulation standards set forth by the FDA Dietary Supplement Health and Education Act as outlined in the code of Regulations, Title 21, part 111. In addition, we are a Silver Partner with Emerson Ecologics Quality Assurance Program.

All said, if products are well made, but not well designed, they may fail at supporting health. At Vitanica, we are proud to remind you our products are researched and designed by Dr. Tori Hudson, a Naturopathic Physician specializing in women's natural health.

Vitanica works like a business, but with the heart of a healer. Vitanica began in 1994 with the dream of helping women. Every day, we want to impact women's health through education and healing. Quality assurance is an essential element of meeting our dream.
