

VITANICA® ~ CCDG BLEND™

Mushrooms, Green tea, DIM and Turmeric have all been shown to support a normal and healthy immune response, maintaining a healthy, normal cellular state.

Featured Ingredients:

- **Coriolus versicolor** (Turkey tail mushroom) has profound immune supportive benefits; our hot water extract contains 30% polysaccharides
- **Curcumin**, or **Turmeric**, has long been used in Ayurvedic medicine for its curcuminoids aspects, known to contain potent antioxidants supporting healthy inflammatory pathways
- **DIM** (Diindolylmethane) from indole-3-carbonale in cruciferous vegetables supports cellular immunity by maintaining healthy hormone metabolism pathways
- **Green tea** is rich in polyphenols, whose robust antioxidant effects are well known for immune support overall

Indications: CCDG Blend offers systemic and cellular immune support, rich in specific antioxidants supporting healthy inflammatory pathways in the body.

Suggested Use: 3 capsules daily; best results when also taking high dose L-methyl-folate or folic acid (10 mg/day).

Size ~ 90 caps; UPC code ~ 7-08118-02027-8

Quality Control Statement

Vitanica is committed to maintaining the content and purity of our dietary supplements. We believe this is accomplished by focusing on the principles that contribute to well-designed products which will support health without contributing to toxicity, utilizing safe and effective ingredients.

Good Manufacturing Practices involve having policies in place to assure adequate and clean facilities, training of staff, verifying and tracking suppliers, raw material testing, clean and organized manufacturing and labeling lines, record keeping, finished product testing, clean and regulated warehousing, etc.

At Vitanica, we strive for excellence in these principles.

One way to assure quality is through third party certification via on-premise observation and analysis. At Vitanica, we are glad to say our dietary supplement manufacturing facilities are third-party certified, FDA registered and meet all regulation standards set forth by the FDA Dietary Supplement Health and Education Act as outlined in the code of Regulations, Title 21, part 111. In addition, we are a Silver Partner with Emerson Ecologics Quality Assurance Program.

All said, if products are well made, but not well designed, they may fail at supporting health. At Vitanica, we are proud to remind you our products are researched and designed by Dr. Tori Hudson, a Naturopathic Physician specializing in women's natural health.

Vitanica works like a business, but with the heart of a healer. Vitanica began in 1994 with the dream of helping women. Every day, we want to impact women's health through education and healing. Quality assurance is an essential element of meeting our dream.
